

SALT LAKE HOSTS THE WORLD

2002 Olympic Winter Games Commemorative Coins

from the United States Mint

In February of 2002 the world will gather in Salt Lake City to capture the spirit of the Olympic Winter Games.

The Mint has issued two commemorative coins to help support the Olympic athletes. The theme of the 2002 Olympic Winter Games – “Fire and Ice” – is captured in the coins’ designs; the fire that propels the athlete – the ice, the field for competition. The obverse of the gold \$5 coin features the 2002 Salt Lake Olympic Winter Games’ Crystal Emblem superimposed on top of the Games’ secondary identity mark entitled: “Rhythm of the Land.” The reverse features the Olympic flame atop a cauldron.

The silver \$1 obverse features the Crystal Emblem, “Rhythm of the Land” and the Olympic rings. The reverse design portrays the Salt Lake City skyline with the Rocky Mountains in the background.

These coins may be ordered in both proof and uncirculated condition and with various packaging options at different prices. An official Certificate of Authenticity accompanies each option.

Please order now and help support our Olympic athletes!
